AN ITALIAN STORY OF SUCCESS

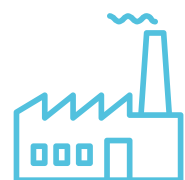

UNA STORIA DI SUCCESSO ITALIANA

Welcome to Unionplast®, an Italian brand synonymous of quality and reliability.

For over 40 years, we have been producing technical components and accessories for furniture, combining functionality and design in a 100% Italian style. Thanks to our experience, we are the chosen partner of the most important Italian and international kitchen brands. Today, Unionplast® is much more than a company: it's a young, close-knit team that proudly carries forward a long tradition of innovation and quality.

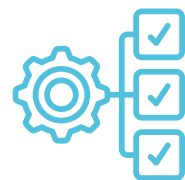

Benvenuti in Unionplast®, un marchio italiano sinonimo di qualità e affidabilità.

Da oltre 40 anni, produciamo accessori e componenti tecnici per cucine, unendo funzionalità e design in stile 100% italiano. Grazie alla nostra esperienza, siamo il partner scelto dalle più grandi firme di cucine e dai più importanti distributori italiani e internazionali. Oggi Unionplast® è più di un'azienda: è un team che porta avanti con orgoglio una lunga tradizione di qualità guardando all'innovazione e capace di offrire soluzioni "tailor made".

CUTTING-EDGE PRODUCTION

Produzione all'avanguardia

RIGOROUS QUALITY CONTROL

Controllo qualità rigoroso

OPTIMIZED LOGISTICS

Logistica ottimizzata

QUALITY AND PRODUCTION AT THEIR BEST

ECCELLENZA PRODUTTIVA E QUALITÀ SENZA COMPROMESSI

With highly automated systems and cutting-edge organization, we work non-stop to optimize time and costs. Quality is at the heart of everything we do: every production phase undergoes strict controls to guarantee high standards and reliable products. With **ISO 9001-2015** Unionplast® stands for innovation, value, and reliability.

Grazie ad impianti altamente automatizzati e a un'organizzazione all'avanguardia, lavoriamo senza interruzioni per ottimizzare tempi e costi. La qualità è il cuore del nostro lavoro: ogni fase produttiva è sottoposta a controlli rigorosi, assicurando standard elevati e prodotti affidabili. Con la certificazione **ISO 9001-2015** Unionplast® è sinonimo di innovazione, valore e sicurezza.

GOLA PROFILES COLLECTION

PROFILI GOLA IN PVC

The profile is made of extruded PVC using certified, fully recyclable materials. It can be coated with various finishes such as aluminium foil, paper, PVC, PP, alkorcell, or veneer. Designed to match cabinet elements like doors, drawers, worktops, plinths, and backsplashes.

Il profilo è realizzato in PVC estruso con materiali certificati e totalmente riciclabili. Può essere rivestito con diversi materiali: foglia in alluminio, carta, PVC, PP, alkorcell o tranciato. Studiato per abbinarsi a componenti del mobile come ante, cassetti, piani di lavoro, zoccoli e alzatine.

Thanks to its configuration, the profile can be used both on cabinets with 16 or 18 mm thick sides, maintaining in either case a minimal and linear look. The ergonomic frontal shape fits perfectly into the cabinet and makes for an easy grip to open the door.

Grazie alla sua configurazione il profilo può essere utilizzato sia nei mobili con fianchi da 16 che da 18 mm, mantenendo in entrambi i casi un aspetto minimale e lineare. La forma ergonomica frontale si integra perfettamente nel mobile e agevola la presa per l'apertura dell'anta.

JOINT PROFILES

CATENE

The Unionplast aluminium joint profiles can be applied to both the front and back of the kitchen cabinet, giving the cabinet solidity. Two different models can be requested for all cabinet sizes. Unionplast joints profiles offer quick assembly and are equipped with plastic dowels.

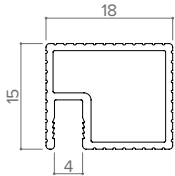

Le catene in alluminio Unionplast possono essere applicate sia nella parte anteriore che posteriore del mobile da cucina offrendo solidità al mobile. Possono essere richieste di due modelli diversi e per tutte le misure dei cabinet. Le catene Unionplast offrono rapidità di montaggio e sono dotate di tasselli in materiale plastico.

A CONCRETE COMMITMENT TO THE FUTURE

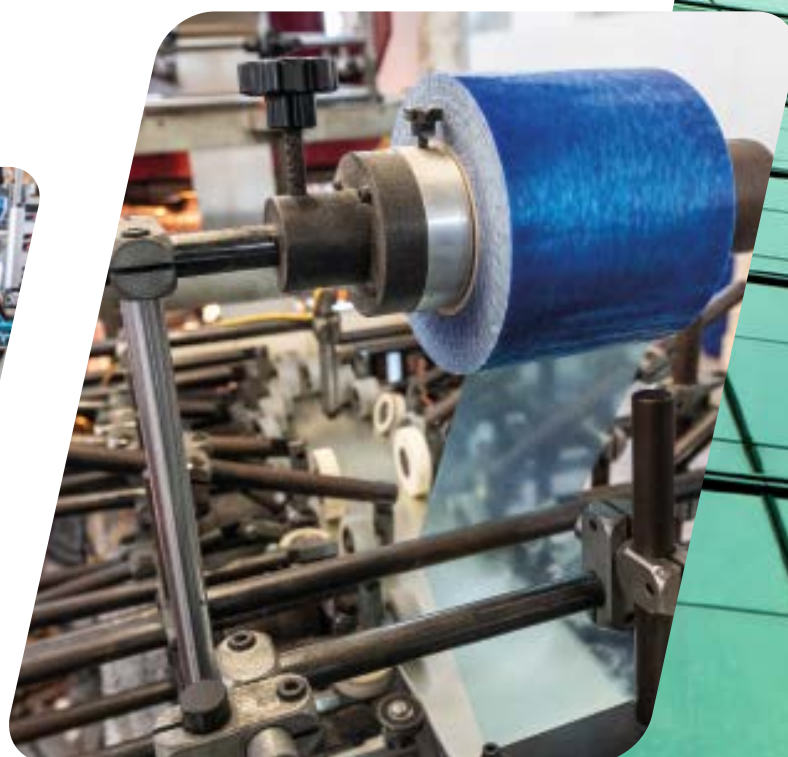

UN IMPEGNO CONCRETO PER IL FUTURO

At Unionplast®, we believe that business success must go hand in hand with environmental responsibility. For this reason, every production decision we make is driven by a sustainable approach: reducing energy consumption, optimizing resources, and promoting recyclable materials.

Our facilities adopt advanced technologies to minimize waste and ensure low environmental impact processes. Through continuous innovation, we are committed to making a real contribution to the circular economy, improving quality of life and protecting the planet for future generations.

Unionplast® crede che il successo aziendale non possa prescindere dalla responsabilità verso l'ambiente. Per questo motivo, ogni nostra scelta produttiva è guidata da un approccio sostenibile: riduciamo i consumi energetici, ottimizziamo le risorse e promuoviamo materiali riciclabili.

I nostri stabilimenti adottano tecnologie avanzate per minimizzare gli sprechi e garantire processi a basso impatto ambientale. Attraverso la continua innovazione, ci impegniamo a contribuire concretamente all'economia circolare, migliorando la qualità della vita e preservando il pianeta per le generazioni future.

SUSTAINABILITY AND INNOVATION

Sostenibilità e innovazione

Our mission is to develop products according to sustainable design principles, introducing recyclable solutions to the market and utilizing secondary raw materials whenever possible.

La nostra missione è sviluppare prodotti secondo i principi del design sostenibile, introducendo sul mercato soluzioni riciclabili e utilizzando, quando possibile, materiali secondari.

COLLABORATION AND RESEARCH

Collaborazione e ricerca

We invest in researching eco-sustainable materials and solutions, collaborating with the entire production and distribution chain to reduce waste and contribute to efficient waste management.

Investiamo nella ricerca di materiali e soluzioni eco-sostenibili, collaborando con l'intera filiera produttiva e distributiva per ridurre gli sprechi e riciclando oltre 1.500 tonnellate di materiali ogni anno.

ENVIRONMENTAL IMPACT ASSESSMENT

Valutazione dell'impatto ambientale

We promote assessment of the environmental impact of our products, ensuring transparency and responsibility at every stage, thanks in part to the clean energy generated by our solar panels, which produce 364 MWh annually.

Promuoviamo la valutazione dell'impatto ambientale dei nostri prodotti, garantendo trasparenza e responsabilità in ogni fase, grazie anche all'energia pulita generata dai nostri pannelli solari che producono annualmente 364 MWh.
